"Electro ID" holds what the name promises: Drum Loops, Patterns, crackled Synths and Basslines as well as Soundeffects for styles like Electro, Tech-House, Hard-Core and Schranz. On it goes, experimenting is the slogan.

Also this compilation is delivered with the Elastik-Loop-Player, giving the possibility of a good structured administration and pre-hearing within a nice and clearly organized surface - Timestretching, Pitchshifting and MIDI-allocation inclusive. The plug-in works under Mac OS X and Windows.
