

Urbanic

Sound and Recording, Februar 2008
<http://www.soundandrecording.de>

A constant stream of DVDs leaves Ueberschall and supplies the user of the Elastik-Player with new material. This library takes care of Black Music in it's most urban way a.k.a. R&B and Hip-Hop

(...)

The library is filled with 33 Construction-Kits that are separated into Intro, Outro, Main, Single Samples and Variation.

(...)

The Kits do have a phat arrangment. The grooves have punch ad infinitum, the melodical parts are not too pushy so there is enough space for a new melody.

If you are using Construction Kits than take Ueberschall - the always sound official!
